Any access fees or charges arising from your continued use of our Services after the effective date of change are your sole responsibility. YOUR ACCOUNT

To use Community Wireless’s Services, you must create an account on this website. When creating an account, you must provide accurate and complete information about yourself as requested during the account creation process. Community Wireless reserves the right to terminate, without notice, accounts with inaccurate, fraudulent or incomplete customer information. You must also maintain that information after you create your account so it remains complete and accurate. You will have the ability to create other accounts and sub-accounts. By creating additional accounts or sub-accounts on this website, you confirm acceptance, understanding, and agreement of these Terms for anyone using Community Wireless’s Services under those accounts. You are solely responsible and agree to pay for all use (whether authorized or unauthorized) of our Services under your account(s) and subaccount(s). You are also solely responsible for all use and for all acts and omissions of users or third parties that have access to your Services. You agree to take all reasonable precautions to prevent unauthorized access to or use of our Services and will notify us promptly of any unauthorized access or use. You agree to indemnify and hold harmless Community Wireless, its officers, employees and affiliates for losses, third-party claims or fraud arising from the use of the Services by users or third parties that have access to

your Services. We will not be liable for any loss or damage arising from unauthorized use of your account.

PAYMENT TERMS

For Community Wireless prepaid Services, your account will be charged as Services are used throughout the month. A positive balance must be kept on your account to keep your products and Services active. The minimum incremental payment is \$25. Community Wireless provides the option to auto-fill your Account with a defined incremental payment with an approved payment method to maintain a positive Account balance. If your service is suspended for a negative balance, you will be required to make a payment higher than the negative balance to reactive Services. The minimum balance required to reactivate an account is \$25. You agree to pay any and all charges that your accounts, sub-accounts, or end-users accessing your Services (Users) incur while using Community Wireless's service, including any and all applicable taxes and fees. Community Wireless will provide automated notifications for Account balances and transactions, but it is always your responsibility to manage your account balance to keep your products and Services active. Prepaid debit cards are not accepted as a form of payment. Any account less than thirty days old will need to contact Community Wireless Support to order new Toll Free numbers.

For Community Wireless postpaid Services, you shall pay all invoices within thirty (30) days of the invoice date. Any undisputed charges not timely paid in full shall be assessed a late fee in the amount of 1.5% of the unpaid balance per month or the maximum lawful rate. For past due amounts, Community Wireless may, after giving you five (5) days' notice, suspend all Services until you have paid your balance in full or terminate this Agreement at Community Wireless's sole discretion. In order to provide postpaid Services, Community Wireless may from time to time, at its sole discretion, review your creditworthiness. Community Wireless may require a security deposit prior to postpaid Services being made available for use and may limit the aggregate charges or usage allowed in a given period. Any amount(s) shall be later applied to the account balance upon disconnect of Services.

If Community Wireless receives a "chargeback" or payment reversal request from your bank/credit card company or Pay Pal for a payment that was made on your account, your ability to use that method for future payments will be suspended. Any payment(s) that receives a chargeback request will be immediately deducted from your account balance. All chargebacks issued to the account will incur a \$25 handling fee per incident.

Taxes. All Service Fees and other charges are exclusive of any taxes, surcharges, public utility fees, and regulatory fees (including, without limitation, Universal Service Fees and E911 taxes). You are responsible for taxes and fees billed by Community Wireless. Taxes and regulatory fees may increase during the Term, and you will pay such increased fees commencing with the next monthly bill. Should you claim an exemption of any taxes or regulatory fees, you must provide official documented and certified proof of such exemption. Any relief from taxes or regulatory fees will begin upon receipt of exemption. In no event will Community Wireless be liable for any taxes due by your accounts, sub-accounts, or your Users, and you agree to defend, indemnify and hold harmless Community Wireless against third party claims against Community Wireless alleging nonpayment of taxes or fees.

Cost Recovery Fee. Community Wireless charges a Cost Recovery Fee as a percentage of monthly billed services. A Cost Recovery Fee allows Community Wireless to offset expenses and management costs incurred by Community Wireless such as state and federal regulatory fees and business licenses.

DISPUTED CHARGES

If you dispute any charges in good faith, you shall submit to Community Wireless within ten (10) calendar days following the posting of such disputed charges, the written documentation identifying the disputed charged amounts. Community Wireless shall investigate the disputed charges and upon a finding in favor of the customer, Community Wireless shall issue a credit against future charges. Failure to dispute a charge in writing within fifteen (15) days of the posting of that charge will create an irrefutable presumption of the correctness of the charge, absent manifest error. A dispute may not be based upon a claim that all or a portion of the charges for the Services were incurred by unauthorized users. All decisions concerning disputes are subject to Community Wireless's sole discretion.

OUR RIGHT TO SUSPEND OR TERMINATE SERVICES

At any time, and for any reason, we may terminate these Terms and Conditions and all Service(s) upon written notice to you. Further, we may immediately suspend or terminate any Service(s) with or without notice for the following reason(s) that warrant such action: (1) if you breach the Community Wireless Terms and Conditions; (2) if you fail to respond to a law enforcement request or other government order; (3) if you use Services to violate any state or federal laws or laws of any other competent jurisdiction in any manner; (4) you fail to comply with the Payment section of the Terms and Conditions; or (5) you violate the Community Wireless Acceptable Use Policy ("AUP").

E911 TERMS & CONDITIONS

Definitions 911 = Emergency call service typically used for delivering emergency calls to a public safety access point.

PSAP = Public Safety Answering Point

VoIP = Voice over IP

DID = Direct Inward Dial aka 10-digit local telephone number

ECRC = Emergency Call Relay Center

Customer Obligations Concerning Emergency 911 Service Limitations. Due to FCC rulings and regulations, all customers who are using Community Wireless Services as their primary residential or business telephone carrier must activate 911 Emergency Services on at least one telephone number (Enhanced DID) per location.

You agree to provide Community Wireless with detailed address and contact information related to any location where you are utilizing Community Wireless Services and may access 911 Emergency Services. You agree to continually update this information prior to implementing any moves, adds, or changes to Community Wireless Services or your service location. You acknowledge that failure to provide such information on a timely basis will severely impair Community Wireless's ability to provide emergency 911 services. Failure to update location and contact information may result in 911 calls routing to the incorrect PSAP.

To ensure any E911 call is routed properly, you must set your outbound caller ID value to the specific 10-digit number (Enhanced DID) which includes 911 Service. This is how the Community Wireless network identifies Your Emergency Response Location and determines PSAP routing.

A call routing to an ECRC due to you originating a call from a telephone number not supporting 911 service, or failing to set the outbound caller ID value to the correct number, will result in a \$75 ECRC surcharge per E911 call.

Service Outages Due to Power Failure or Broadband/Internet Service Disruption. 911 Dialing does not function in the event of a power failure or disruption. If there is an interruption in the power supply at your location, the Service, including 911 Dialing, will not function until power is restored. Following a power failure or disruption, you may need to reset or reconfigure devices at your service location prior to utilizing the Service, including 911 Dialing. Service outage, suspension, or disconnection of your Broadband or Internet Service will prevent all Services, including 911 dialing, from functioning.

Service Outages Due to Suspension or Disconnection of Broadband Service or ISP Service. Service outages or suspensions or disconnections of service by your broadband service provider or ISP will prevent all Services, including 911 Dialing, from functioning.

Community Wireless shall have no responsibility or liability to you or any third party in connection with or for responding to emergency 911 or other emergency referral calls. You agree to indemnify and hold Community Wireless harmless from and against any actions and/or liability arising out of Community Wireless's provision of said Service.

Alternate 911 Arrangements. If you are not comfortable with the limitations of the 911 Dialing service, you should consider having an alternate means of accessing traditional 911 or E911 services or disconnecting the Service.

You agree the information you provide to the LIDB/CNAM database will not be misleading or inaccurate, and you agree to adhere to industry standards, laws, rules, and regulations relating to CNAM, including the Truth in Caller ID Act.
